*Applicable for Challenger 604, Challenger 605 and Challenger 650 aircraft.

BOMBARDIER

Ka-band

Delivering one of the fastest internet connectivity worldwide[§], Ka-band keeps you informed and entertained wherever your travels take you. From video conferencing to movie streaming, the Ka-band capabilities onboard Global and Challenger* aircraft will enhance your in-flight experience.

WORLDWIDE COVERAGE

Leveraging the latest Ka-band satellite technology, Global and Challenger* aircraft are now equipped with an internet connectivity designed to match the range of the Global and Challenger* aircraft family.

ONE OF THE FASTEST CONNECTIVITY

Ka-band features one of the fastest internet connectivity worldwide, allowing passengers to work above the clouds as in their office, as well as to enjoy their favourite entertainment seamlessly. With multiple data package options available, clients can select the right package for their needs.

PERFORMANCE COMMITMENTS

Ka-band is unbeatable in terms of speed, coverage and reliability. To illustrate the confidence in the service, the Ka-band packages are backed by performance commitments offered by our Preferred Service Provider, Collins Aerospace.

CONNECT, STREAM, WATCH & COMMUNICATE

With Ka-band, users can enjoy the following activities while in flight or on the ground:

- Video conferencing
- Internet TV
- High-definition video streaming
- Video on demand
- Large file upload and download
- Gaming

When used in conjunction with compatible Cabin Management Systems onboard Bombardier aircraft, the system offers the possibility to relay content throughout the cabin for an immersive entertainment experience.
