

# Continuing Airworthiness & Maintenance Management

Benefit from our OEM advantage while reducing costs

 **Bombardier**

# Our expertise, your peace of mind

Fly worry-free knowing that Bombardier offers a wide range of efficient maintenance planning and airworthiness reviews for your aircraft either if it is registered with EASA, FAA or any other major national aviation authorities.

As an EASA Part-CAMO approved organization, we offer ultimate flexibility with your choice of continuing airworthiness & maintenance management, based on your aircraft needs anywhere in the world.

## Benefit from our exclusive advantages

### OEM ADVANTAGE

- We built your aircraft, we know it best
- Fast response times with direct interface for OEM requests
- Be the first to know about new upgrades and time them with scheduled maintenance
- Direct link to OEM expert teams including 24/7 AOG support through Bombardier's Customer response Centre
- Customized advanced reliability program with tailored recommendations to maximize air time
- OEM-advantage in trouble shooting support
- Experience in coordination with leading aircraft registries and national aviation authorities

### COST SAVINGS

- OEM maintenance management can enhance resale value of your aircraft
- Customized Maintenance Program and Minimum Equipment List included
- Fixed monthly rates\* for 5 years
- No on-boarding fees
- Lean operations set up with less personal resources required

# CAMO & Maintenance Management Tasks

Our Bombardier experts are authorized to carry out and submit recommendations for Airworthiness Review Certificates in accordance with the official requirements of your national aviation authority. The following services can be completed during any maintenance downtime or at your aircraft home base.

- Airworthiness and logbook review
- Certificate of Airworthiness renewal support
- Possibility to pair logbook review with a pre-purchase examination
- Registration and de-registration support
- For EASA registered aircraft, our team can provide you with a recommendation to allow your NAA to issue an EASA Form 15a

At Bombardier, we facilitate the maintenance of your records by providing tailored solutions to your aircraft needs. Our services include:

- Planning the work scope and maintenance with your preferred facility, including supervision while maintenance is performed
- Monitoring maintenance tasks and life limits, in accordance with the approved maintenance program
- Reviewing maintenance records, storing and maintaining the life record file and system updates
- Providing maintenance control for unused or stored aircraft
- Managing dent and buckle chart
- Keeping a record of aircraft operating times
- Gathering and reporting engine trend data
- Development of a maintenance program and Minimum Equipment List, tailored to your aircraft's specific configuration
- Keeping your maintenance program up to date according to the newest OEM data and specific requirements
- Coordination of the approval process with the competent authority
- Reliability program compilation
